## Unmet demand

Information from our Family Information Service has identified the following information relating to barriers to using childcare in this ward.

| Ward                 | SOA | Care Type 1 | Difficulty  | Resolution   |
|----------------------|-----|-------------|-------------|--|
| Milkstone & Deeplish |     | 5484        | Childminder | Didn't get the job so no longer requires childcare |

There are two Children's Centres whose reach areas fall within this ward. The total shown below is the amalgamation of all those centre's returns which have revealed the following information:

| Families in reach area | Number families responded | % |
|------------------------|---------------------------|---|
| 1136                   | 47                        | 4 |

| Ethnicity of respondents         | Count | %  |
|----------------------------------|-------|----|
| White British                    | 3     | 6  |
| Asian or Asian British Pakistani | 40    | 85 |
| Black Caribbean                  | 1     | 2  |
| Other                            | 1     | 2  |

Within this survey parental comment and demand appears focussed on further development of more informal/drop in services, particularly focussing on request for crèche and stay and play sessions to be extended or increased in frequency. There is no evidence to suggest that these requests were linked to a potential return to work or training. Therefore, these suggestions will be responded to within individual children's centre development plans and not within this Sufficiency Assessment.

However, when asked in which way children's centres overall have improved their lives, many parents responded by stating that access to children's centres had given them an opportunity to undertake training which would aid their future employment. These figures (%'s of those who responded to the question) are shown as follows:

The national average of take up for the childcare element of Working Tax Credit is 14%. In this ward the super output areas highlighted as bold are below this average and would therefore benefit from enhanced marketing and promotion of tax credit availability.

### Ward summary and recommendations

In 2008 the average figure for people of working age in employment in the Borough of Rochdale was 69.3%. In determining the likely demand for childcare in each ward we have therefore assumed that this % figure of the total children in the ward would be from families who may require childcare.

We are aiming for a child to place ratios for each age range as follows:

|                                |                               |
|--------------------------------|-------------------------------|
| 0 - 5 years                    | 1 place for every 8 children  |
| 3 - 4 years (free entitlement) | 1 place for every child       |
| 5 - 11 years (term time)       | 1 place for every 8 children  |
| 5 - 11 years (holidays)        | 1 place for every 16 children |

Using these figures for the age ranges below (with the exception of 3 and 4 year old's who are in receipt of a universal free entitlement) gives the child to place ratios detailed below

| Age Range   | Total Number of children | 69.3% of total children | Childcare places in ward | Ratio children to places | % coverage |

### Childcare costs

Childcare costs in this ward are, in all areas, below national and regional averages. However, childminder places are slightly above the Rochdale average.

### Recommendations

- promote tax credit information in SOA areas 5470,5471,5473, 5475, 5482, 5484, 5485, 5564.
- amend childminder start up grant to include targeted funding in this ward for new registered childcare places for out of school and holiday age range.
