Public Liability Insurance – Guidelines for Hiring Bouncy Castles/Inflatable Play Equipment

To enable the public liability cover to apply, please ensure that the following procedures are strictly adhered to when the bouncy castle is in use.

- The company you use conform to PIPA guidelines
- The company has a minimum of £10m public and products liability insurance (you need to ensure you retain a copy of their certificate)
- The castle must be securely tethered and staked to the ground at all times when in operation.
- The rear of the inflatable must be roped off
- The company you use supervise the bouncy castle at all times, when in use.
- Any unruly behavior must mean a child is removed
- Safety mats must be placed at the entrance and exit
- Adults and children must not use the castle at the same time.
- Only groups of children of a similar age and size must be allowed to use the equipment at the same time
- The number of children must be suitable for the size of the inflatable
- Children must remove all shoes and sharp objects

Should you be unable to comply with all of these procedures, please do not use the castle.
